

10 Day Full River incl. Frenchmans Cap

This [ten day expedition](#) is one of the great river journeys of the world. It takes you the full navigable length of the Franklin River, deep in the heart of the Tasmanian Wilderness World Heritage Area. Our tour includes an optional day walk to the imposing Frenchmans Cap (1,446 m), the monarch of the south west, as well as rafting through the 'Great Ravine' one of Tasmania's most spectacular gorges.

Negotiating the untamed waters of the Franklin River is one of the worlds best whitewater rafting adventures. Unpredictable river levels mean our trip will always be an adventure - it is possible to encounter both very low levels and floods within days of each other. Whatever the level, rafts offer the best way to explore this unique wilderness.

Meeting Point and Time

We meet the **afternoon before Day One at 6 pm at the Astor Private Hotel, Level 2, 157 Macquarie Street, Hobart (03) 6234 6611.** This meeting is to issue and check gear. It is possible to initially meet later by prior arrangement. Alternatively we can also meet at Derwent Bridge Hotel on Day One at 10:30 am.

Time of Return

Generally we arrive back in Hobart on the early evening of Day Ten (around 6 - 7 pm). Our tour concludes with a yacht cruise on the Gordon River then across Macquarie Harbour to Strahan, from here our coach will return to Hobart. We often have a group dinner in Hobart. Please note that very occasionally delays can be caused by extreme weather conditions. We recommend catching the last flight out of Hobart on the day after the trip.

Grade and Fitness

Adventurous - A reasonable level of fitness is important and should increase your enjoyment of this trip. The Frenchman's Cap Walk (optional) involves an ascent and descent of more than 1000 meters vertical. In addition there may be some portages which may require us to carry equipment around certain rapids. You should feel confident swimming with a buoyancy vest should you fall out or the raft capsize. Rapids vary from Grade One to Grade Six though most are Grade Two or Three. The most difficult level run on most trips is Grade Four and it is possible to walk around many of these rapids should you choose. Please call us on 1-800-1111-42 if you would like to discuss your individual fitness.

Itinerary – 10 day Full River

This is a guide only and may alter with river levels.

Day 1

We depart at 7:30 am from the Astor Private Hotel. Following the Derwent River we climb into the central highlands passing Lake St. Clair before descending to the Collingwood River, a tributary of the Franklin. Here your guides will load the rafts and give a safety briefing. The day is spent mastering the rafts and enjoying easy rapids leading down to our evenings camp at the junction with the Franklin proper. A short climb can take us to Donaghy's Hill for panoramic views down the Franklin River and across to Frenchman's Cap.

Day 2

An early start sees us traversing the first of the Franklin's gorges, Aesthesia Ravine. After negotiating the Log Jam and Nasty Notch, we rocket through the rapids of Descension Gorge before arriving at the beautiful 'Irenabyss' or chasm of peace, our base for the next two nights.

Day 3

Today we scale the Cap (1446 m). In fine weather we'll have views that encompass the entire south west World Heritage Area, including the rapids of the Franklin sparkling below. If the weather is poor or you choose not to climb the Cap, there are a number of lower level walks nearby that offer a different perspective of the river. This is a great place to spend the day and explore the Irenabyss.

Day 4

After a big breakfast it's straight back into the action. Dozens of rapids, interspersed with quiet reaches, lead us past Mt. Fincham, the Jericho Walls and the Crankle and onto our campsite at the base of the Engineer Range. Here we relax at our camp under a canopy of towering sassafras and myrtle trees or on a sandy beach and may go swimming.

Day 5

A spectacular day that brings us to the awesome Great Ravine, one of Tasmania's deepest gorges. Soon after camp we arrive at the massive Blushrock Falls for a short walk and morning tea. We'll tackle the Side Slip rapid first before coming to the Churn. Teamwork and tenacity will be required to portage at least part of this huge obstruction in the river and level permitting run the "corkscrew rapid". Soon after we'll arrive at our camp for a well earned rest on the banks of Serenity Sound deep in the Great Ravine.

Day 6

We'll use all of our well practised white water rafting skills to negotiate the Coruscades, one of the longest rapids on the river. A short float takes us through to our next portage at Thunderush, then its on to the last obstacle, the Cauldron. Our expert guides will ensure that we pass these awesome rapids safely and efficiently. Our final camp at Rafter's Basin is a great place to relax after the achievements of the day.

Day 7

Today we head into Propsting Gorge, this section has the largest runnable rapids on the river at low to medium levels. After negotiating Ol' Three Tiers we continue through the exciting Trojans rapids before arriving at Rock Island Bend and the Pig Trough, with its delightful waterfall cascading into a fern lined grotto. Safety dictates that we portage the actual Pig Trough rapid before we round Rock Island Bend to tackle the famous Newland's Cascades. This section will have everyone whooping with delight as we plunge through a maelstrom of spray and whitewater. At rapids-end is a place for a deserved break. On the bank, natural overhangs provide the ideal shelter. Echoing cliffs and plumes of spray add to the magnificent setting. We sometimes spend a day here.

Day 8

The river abruptly leaves the quartzite gorges of the Middle Franklin and enters the limestone country of the lower reaches. Tranquil pools are broken by the occasional large rapid - 'Little Fall' is a great spot for action photography! Slowly the river increases in volume. The Jane River enters from the left just above our midday break on Flat Island, a beach of polished river stone dominated by the impressive Elliot range. We then continue to our evenings camp under a canopy of ancient trees by the deep pool at Blackmans Bend or one of the lower rivers' many sandy beaches. We may be lucky enough to get a visit from the local platypus.

Day 9

The thick temperate rainforest which clings to the river banks is punctuated by limestone cliffs and strange rock formations. The river widens and now flows quietly. There is time to reflect; to conjure up visions of Aboriginal peoples hunting the Ice Age plains in the days before the forest spread to claim the open country. Today we will carefully show you some of the unique limestone caves which sheltered these people some 14,000 year ago. We then tackle the unexpected 'Double Fall'. Almost immediately we encounter the last step down in the rivers bedrock, 'Big Fall'. It's a deceptive rapid which we portage easily and quickly. Around the corner is the gaping Penghana Cave, a towering vault in the cliffs and the entrance to the 'Lost World'. Our final few hours are spent along the mighty Gordon River, carried by the huge volume of water that makes this Tasmania's largest waterway. Soon we reach the picturesque Sir John Falls, our final camp.

Day 10

Aboard the yacht 'Stormbreaker' we can relax and enjoy breakfast and brunch while cruising down the Gordon River and across Macquarie Harbour to Strahan on the West Coast. A coach trip back to Hobart completes our journey, normally arriving 6-7pm. We have flown directly to Hobart from the river many times and will provide this option when an appropriate aircraft becomes available. It may be possible to organise aerial transfers for a group from Strahan to Hobart.
